EXPERIENCE

Unacademy (Graphy) — Bengaluru, India

Software Engineer, Frontend — Sep 2024 – Present

React.js · Next.js · TypeScript · Tailwind CSS · Zustand · Node.js · Socket.io · Amplitude

- Architected the **AI Website Builder (V3)**: component and state-management architecture for prompt-based and manual editing, live preview across 5 page types, and version history with rollback; **cut creator site-setup time 60%**.
- Led the **Next.js 15 App Router migration** for core pages, untangling nested routing and moving rendering server-side; **improved Largest Contentful Paint 20%**.
- Built **WhatsApp Campaigns** with an AI-assisted approval workflow for 3 organization types; **shipped in 2 sprints with zero post-launch defects**.
- Automated **AI support escalation** with dissatisfaction detection and webhook-triggered human handover; **reduced support backlog 30%**.
- Rebuilt **web and mobile onboarding** as a responsive step-based flow instrumented across 6 core product flows; **signup abandonment down 15%**.

Frontend Developer Intern — Mar 2024 – Sep 2024

- Built **mobile OTP login/signup** for web and mobile, **raising login-flow completion 10%** in the India market.
- Added 3 modular components to the internal **shared React library** with Zustand, **speeding feature delivery 15%** across teams.

Academor — Remote

Frontend Developer Intern — Jan 2024 – Mar 2024

- Built responsive UI in React.js and Tailwind CSS for the customer-facing web product.

PROJECT

CodeReview AI — Live demo · GitHub

React · TypeScript · Node.js · Express · MongoDB · Google Gemini · Server-Sent Events · Zod · Vitest

- AI code-review web app: paste code and get **severity-tagged issues with line numbers and suggested fixes, streamed live over SSE**.
- LLM output as newline-delimited JSON **validated line by line with Zod**, so valid issues render instantly and malformed lines are skipped; model timeouts with a fallback model.
- JWT auth (in-memory access token, httpOnly refresh cookie), rate limiting and review history; **tested with Vitest**, deployed on Vercel and Render.
